

糖尿病看護を専門とする看護師の実践能力育成方法の開発 教育スタイル自己評価ツールを活用して

糖尿病看護に専門的に携わる看護師の能力育成をめざす教育介入に用いるために、看護師の教育スタイル自己評価ツールを作成した。今後はさらに項目の修正や精選を行い看護師への教育介入へ向け検討を重ねていく。

Development of measures to cultivate the abilities of nurses involved in professional diabetes nursing care - Utilization of a self-evaluation tool for the teaching style of nurses in diabetes patient education-

A teaching style self-evaluation tool for nurses was developed in order to intervene in education to develop the abilities of nurses who are professionally involved in diabetes nursing care. We also discuss measures for educational intervention for nurses through further modification and selection of items for future investigation.
